AUTOMATIC RECORDING OF USER INTEREST FORMATS

.....
.....

APPENDIX M-1

NSN FORMAT FOR AUTOMATIC RECORDING OF USER INTEREST NOTIFICATION

Header/Trailer - AUTODIN header and trailer records will be applied in accordance with JANAP 128. A unique content indicator code "IHF~~M~~" will be assigned to positions 5-8.

The Communication Routing Identifier (positions 10- 16) will **identify** the originating IMM. The Communication Routing Identifier (positions 41-47) will **identify** the intended recipient.

<u>Field Legend</u>	<u>Position</u>	<u>Explanation</u>
Document Identifier Code (DIC)	1-3	This field will contain the appropriate code to identify the type of transaction. Enter DIC WZ 1 to indicate that adoption action has been initiated. Enter DIC WZ2 to indicate information for referral and review by appropriate SICA.
IMM Activity Code	4-5	Originating IMM Activity Code
Service/Agency Activity Code	6-7	Receiving Service/Agency Activity Code
Requisitioned NSN	8-22	Enter from the requisition.
Blank	23-27	Leave Blank
Unit of Issue	28-29	Enter from the requisition. (Positions 23-24)
Quantity	30-34	Enter from the requisition. (Positions 25-29)
Document Number	35-48	Enter from the requisition. (Positions 30-43)
Demand Code	49	Enter from the requisition. (Position 44)
Supplementary Address	50-55	Enter from the requisition. (Positions 45-50)

**NSN FORMAT FOR AUTOMATIC RECORDING OF USER INTEREST NOTIFICATION
(cent'd)**

<u>Field Legend</u>	<u>Position</u>	<u>Explanation</u>
Distribution Code	56-58	Enter from the requisition. (Positions 54-56)
Project Code	59-61	Enter from the requisition. (Positions 57-59)
Priority Designator Code	62-63	Enter from the requisition,
Action Taken Code	64-65	Enter "IS" to identify that action has been initiated to register the appropriate activities in DLIS-on both the nonstandard NSN in positions 8-22 and the standard NSN in positions 67-79. Enter "S1" to identify that action has been initiated to register the appropriate activities in DLIS only on the standard NSN in positions 67-79.
Blank	66	Leave Blank.
Standard NSN	67-79	Enter the standard NSN, when applicable.
Continuation Indicator Code	80	Enter a dash (-) if additional records for NSN (position 8-22) follow. If last record for the item, leave blank.

APPENDIX M-2

NON-NSN PART NUMBER FORMAT FOR AUTOMATIC RECORDING OF USER INTEREST NOTIFICATION

Header/Trailer - AUTODIN header and trailer records will be applied in accordance with JANAP 128. A unique content indicator code "IHFM" will be assigned to positions 5-8.

The Communication Routing Identifier (positions 10-16) will **identify** the originating **IMM**. The Communication Routing Identifier (positions 41-47) will **identify** the intended recipient.

<u>Field Legend</u>	<u>Position</u>	<u>Explanation</u>
Document Identifier Code (DIC)	1-3	<p>This field will contain the appropriate code to identify the type of transaction.</p> <p>Enter DIC WZ3 for notification that part number qualifies for NSN.</p> <p>Enter DIC WZ4 for notification that Stock Number request (LN) transaction has been forwarded to DLSC.</p> <p>Enter DIC WZ5 for notification of the NSN assigned to the P/N in positions 8-22 and 23-27.</p> <p>Enter DIC WZ6 to indicate information for referral and review by appropriate SICA. See Advice Code in positions 64-65.</p> <p>Enter DIC WZ7 for notification that an existing NSN has been identified/adopted for the P/N item requisitioned.</p>
IMM Activity Code	4-5	Originating IMM Activity Code.
Service/Agency Activity Code	6-7	Receiving Service/Agency Activity Code.
Requisitioned Manufacturer's Code and Part Number	8-22	Mandatory . Enter from the requisition. (DD Form 1348-6).

**NON-NSN PART NUMBER FORMAT FOR AUTOMATIC RECORDING OF USER
INTEREST NOTIFICATION (cent'd)**

<u>Field Legend</u>	<u>Position</u>	<u>Explanation</u>
Manufacturer's Code and Part Number Overflow Field	23-27	Enter from the requisition. (DD Form 1348-6).
Unit of Issue	28-29	Enter from the requisition. (Positions 23-24)
Quantity	30-34	Enter from the requisition, (Positions 25-29)
Document Number	35-48	Enter from the requisition. (Positions 30-43)
Demand Code	49	Enter from the requisition. (Position 44)
Supplementary Address	50-55	Enter from the requisition. (Positions 45-50)
Distribution Code	56-58	Enter from the requisition, (Positions 54-56)
Project Code	59-61	Enter from the requisition. (Position 57-59)
Priority Designator Code	62-63	Enter from the requisition. (Position 60-61)
Advice Code	64-65	For WZ6, enter one of the following Advice Codes: X1 - FSC not applicable to processing IMM. X2 - Nonconsumable Item X3 - Restricted FSC
Reference Identification Code	66	For WZ3/WZ6 , enter one of the following codes (if applicable) from the requisition (position 70) to identify the entry in positions 67-79 A - Technical Order or Manual. B - End Item Identification. C - Noun Description of Item. D - Drawing or Specification Number.

**NON-NSN PART NUMBER FORMAT FOR AUTOMATIC RECORDING OF USER
INTEREST NOTIFICATION (cent'd)**

<u>Field Legend</u>	<u>Position</u>	<u>Explanation</u>
Reference Identification or NSN (Applicable DICs ___)	67-79	Enter the information from positions 71-80 of the requisition or the NSN assigned to the item.
or		
Document Control Serial Number (DCSN) and Federal Supply Class (FSC) (Applicable DIC WZ4)*	67-79	See Below
or		
DCSN	67-73	Enter DCSN from NSN request transaction for the involved P/N .
Blank	74	Leave Blank.
FSC	75-78	Enter FSC assigned to P/N .
Blank	79	Leave Blank.
Continuation Indicator Code	80	Enter a dash (-) if additional records for NSN (position 8-22) follow. If last record for the item, leave blank.

* NOTE: Use when providing notification with **DIC WZ4**.

NSN LISTING FORMAT FOR AUTOMATIC RECORDING OF USER INTEREST NOTIFICATION

For those activities not utilizing electronic transmission processing, the IMM will provide listings containing the data in the same record formats.

<u>Field Legend</u>	<u>Position</u>	<u>Explanation</u>
Document Identifier Code	1-3	This field will contain the appropriate code to identify the type of transaction. Enter DIC WZ1 to indicate that adoption action has been initiated. Enter DIC WZ2 to indicate information for referral and review by appropriate SICA .
Blank	4-5	Leave Blank
IMM Activity Code	6-7	Originating IMM Activity Code - Mandatory .
Blank	8-10	Leave Blank
Service/Agency Activity Code	11-12	Receiving Service/Agency Activity Code - Mandatory .
Blank	13-15	Leave Blank
Requisitioned NSN	16-30	Mandatory
Blank	31-33	Leave Blank
Unit of Issue	34-35	Mandatory
Blank	36-38	Leave Blank
Quantity	39-43	Mandatory
Blank	44-46	Leave Blank

**NSN LISTING FORMAT FOR AUTOMATIC RECORDING OF USER INTEREST
NOTIFICATION (cent'd)**

<u>Field Legend</u>	<u>Position</u>	<u>Explanation</u>
Document Number	47-60	Mandatory
Blank	61-63	Leave Blank
Demand Code	64	Mandatory
Blank	65-67	Leave Blank
Supplementary Address	68-73	If available
Blank	74-76	Leave Blank
Distribution Code	77-79	If available
Blank	80-82	Leave Blank
Project Code	83-85	If available
Blank	86-88	Leave Blank
Priority Designator Code	89-90	Mandatory (See Note)
Blank	91-100	Leave Blank
Advice Code	101-102	Mandatory
Blank	103-110	Leave Blank
Standard NSN	111-123	If appropriate
Blank	124-130	Leave Blank

NOTE: Not required for semiannual listings for Medical, Clothing and Textile, and Military Distinctive Items.

APPENDIX M-4
NON-NSN PART NUMBER LISTING FORMAT FOR AUTOMATIC RECORDING OF USER
INTEREST NOTIFICATION

For those activities not utilizing electronic transmission processing, the IMM will provide listings containing the data in the same formats.

<u>Field Legend</u>	<u>Position</u>	<u>Explanation</u>
Document Identifier Code (DIC)	1-3	This field will contain the appropriate code to identify the type of transaction. Enter DIC WZ3 for notification that P/N qualifies for NSN. Enter DIC WZ4 for notification that Stock-Number request (LN___) transaction has been forwarded to DLSC. Enter DIC WZ5 for notification of the NSN assigned to the P/N in positions 16-30 and 34-38. Enter DIC WZ6 to indicate information for referral and review by appropriate SICA. See Advice Code in positions 97-98. Enter DIC WZ7 for notification that an existing NSN has been identified/adopted for the P/N item requisitioned - Mandatory. (See Note)
Blank	4-5	Leave Blank
IMM Activity Code	6-7	Originating IMM Activity Code. Mandatory.
Blank	8-10	Leave Blank
Service/Agency Activity Code	11-12	Receiving Service/Agency Activity Code - Mandatory.
Blank	13-15	Leave Blank
Requisitioned Manufacturer's Code and Part Number	16-30	Mandatory

NON-NSN PART NUMBER LISTINGS FORMAT FOR AUTOMATIC RECORDING OF USER INTEREST NOTIFICATION (cent'd)

<u>Field Legend</u>	<u>Position</u>	<u>Explanation</u>
Blank	31-33	Leave Blank
Manufacturer Code and Part Number Overflow Field	34-38	If available
Blank	39	Leave Blank
Unit of Issue	40-41	Mandatory
Blank	42	Leave Blank
Quantity	43-47	Mandatory
Blank	48-49	Leave Blank
Document Number	50-63	Mandatory
Blank	64-66	Leave Blank
Demand Code	67	Mandatory
Blank	68-70	Leave Blank
Supplementary Address	71-76	If available
Blank	77-79	Leave Blank
Distribution Code	80-82	If available
Blank	83-85	Leave Blank
Project Code	86-88	If available
Blank	89-91	Leave Blank

**NON-NSN PART NUMBER LISTINGS FORMAT FOR AUTOMATIC RECORDING OF USER
INTEREST NOTIFICATION (cont'd)**

<u>Field Legend</u>	<u>Position</u>	<u>Explanation</u>
Priority Designator Code	92-93	Mandatory
Blank	94-96	Leave Blank
Advice Code	97-98	For WZ6, enter applicable advice code X1, X2, or X3 (See definitions in App-M-2)
Blank	99-101	Leave Blank
Reference Identification Code	102	For WZ3/WZ6, enter reference identification code from requisition, if applicable.
Blank	103-105	Leave Blank
Reference/NSN/ DCSN/FSC	106-118	For WZ3/WZ6, enter reference identification from the requisition. For WZ4, enter the Document Control Serial Number (DCSN) in positions 106-112 and the FSC in positions 114-117 from the cataloging request for NSN assignment. For WZ5/WZ7, enter the NSN assigned for (or matched to) the requisitioned part number.
Blank	119-130	Leave Blank

NOTE: Not required for semiannual listings for Medical, Clothing and Textile, and Military Distinctive Items.

APPENDIX M-5

AUTOMATIC RECORDING OF USER INTEREST DOCUMENT IDENTIFIER CODES

DOCUMENT IDENTIFIER CODE (DIC). The **DICs** prescribed herein are 3-character alphanumeric codes which **identify** Automatic Recording of User Interest Notifications, and are constructed and defined as follows:

1. WZ1 - Identifies the transmission that an adoption action has been initiated by the **IMM**.
2. WZ2 - Identifies that the transmission contains **information** for referral and review by the **SICA**.
3. WZ3 - Identifies the transmission of a notification to the **SICA** that a part number qualifies for NSN assignment.
4. WZ4 - Identifies the transmission of a notification to the **SICA** that a stock number request (**LN**) transaction has been forwarded to DLSC.
5. WZ5 - Identifies the transmission of a notification to the **SICA** of the NSN assigned to the part number in positions 8-22 and 23-27.
6. WZ6 - Identifies that the transmission contains **information** for referral and review by the **SICA**.
7. WZ7 - Identifies the transmission of a notification that an existing **NSN** has been identified/adopted for the part number requisitioned.
